Marnie's Wellness Corner

It is May~ school is almost over and what an amazing year we had! Now it is time to think about vacations and summer fun! Even with longer days and different routines, it is important to **maintain a consistent schedule over the summer months**. Summer is a time to relax—but not a time to relax important routines. Routines help your child cooperate, develop responsibility and become self-disciplined. They also make it easier to adjust when school starts again. Maintain routines for:

Sleep. When school is out, your child's bedtime and rising time may be later than usual. Once you choose a reasonable sleep schedule, however, stick with it.

Reading. Schedule time for it. Keep your home stocked with reading material and encourage reading every day, including in fun spots, such as the pool or the park.

Meals. Make it a priority to have at least one meal as a family each day. This is a chance to catch up and enjoy one another's company.

Screen time. Extra free time should not mean more time for screen media. Maintain healthy limits for the amount of time your child spends in front of screens. Feel free to contact me via email if you have any questions or need resources or ideas. Enjoy the time with your family and stay well~ *Marnie Reber*, soea_mreber@tccsa.net
