Fast Track to Success for Graduating Seniors

In-demand, well-paid jobs in Ohio are going unfilled. Teens and families need information about these 21st century career options and how to gain the skills for jobs in emerging technologies. Today's students can fast-track their success using postsecondary education options after high school right in your area – at an Ohio Technical Center. All career technical programs are built on direct ties to business and industry. The skills a student learns can be immediately put to use!

Join representatives from Ohio Technical Centers and At The Core for an informative, online presentation and discussion to learn about powerful and exciting opportunities for graduating seniors including the adult programs at Ohio's Technical Centers. This free webinar will take place on Tuesday, October 17 at 6:30 pm. All registrants will receive a recording. [Register for the webinar now by going to this website: https://shorturl.at/esX39](https://shorturl.at/esX39)

Focusing on current WHS seniors and their families, the presentation will cover the following:

- Overview of the career and technical centers across Ohio and how they offer adult learners the training and credentials for the most in-demand jobs and a direct path to employability
- How to evaluate if this path is right for your student
- Examples of how students made this educational choice work for them
- Details on how to get started, where to find more information, types of programs available, timing, costs, etc.

Learn more about this option for education after high school so your family can make an informed decision on the best next step for your student.

There are 49 Ohio Technical Centers that provide postsecondary educational opportunities in their communities. Examples of programs include healthcare (medical assisting, nursing, billing and coding, phlebotomy), welding, HVAC, public safety (police, security, firefighter, paramedic, EMT), commercial drivers, computers (cybersecurity, software training), culinary arts, automation/robotics maintenance, etc.
